5. PACKAGING, DISPENSER COMPATIBILITY & QUALITY STANDARDS

Beverage Quality & Food Safety:	All fountain syrups must be manufactured in FDA-registered and SQF/BRC Level 3 certified facilities. Guaranteed 100% genuine formulation adhering to strict beverage brand standards. Certificates of Analysis (COA) must accompany each production lot.
Container & Connector Specs:	5.0 US Gallon (18.9 L) multi-layer high-barrier EVOH / metallized polyester bag packaged in a heavy-duty corrugated box (minimum 200# burst test). Standard QC / QCD-II / Envirocon screw-on fitment compatible with standard restaurant post-mix pump lines.
Dispenser Compatibility & Brix:	Syrups must be calibrated for standard commercial post-mix fountain dispensers (Lancer, Cornelius, Multiplex) operating with cold carbonated water (38°F–42°F, 95–105 PSI carbonator pressure) at standard 5.0:1 or 5.5:1 mix ratios.
Shelf Life & Lot Identification:	Minimum guaranteed shelf life upon delivery: 75 days for colas/diet/zeros; 90–120 days for teas/lemonade/fruit sodas . Julian date code, expiration 'Best By' date, and flavor name clearly printed on outer box top and side panels.
Delivery Logistics & Service:	Weekly Direct-Store-Delivery (DSD) to 15 restaurant locations across Southern California OR bulk scheduled drops to Central Distribution Center in Los Angeles County. Emergency same-day/next-day restocking support required.
